Climate Change and Human Health Literature Portal

Heat waves and the elderly. Adverse drug events

Author(s): Sommet A, Castot A, Montastruc JL

Year: 2009

Journal: BMJ (Clinical Research Ed.). 339: b3146

Source: http://dx.doi.org/10.1136/BMJ.b3146

Resource Description

Exposure:

weather or climate related pathway by which climate change affects health

Temperature

Temperature: Extreme Heat

Geographic Feature: M

resource focuses on specific type of geography

None or Unspecified

Geographic Location: M

resource focuses on specific location

Non-United States

Non-United States: Europe

European Region/Country: European Country

Other European Country: France

Health Impact: **M**

specification of health effect or disease related to climate change exposure

Other Health Impact

Other Health Impact: Adverse Drug Reactions

Population of Concern: A focus of content

Population of Concern: M

populations at particular risk or vulnerability to climate change impacts

Elderly

Climate Change and Human Health Literature Portal

Resource Type: **☑**

format or standard characteristic of resource

Research Article

Timescale: M

time period studied

Time Scale Unspecified
